

Project Design Phase
Proposed Solution Template

Date	15 February 2025
Team ID	
Project Name	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Understanding housing market trends and factors affecting sale prices is difficult due to large and complex real estate datasets. Users need an easy way to analyze and interpret housing data.
2.	Idea / Solution description	Develop an interactive Tableau dashboard to visualize housing market trends, analyze sale prices, and examine the impact of property features such as location, area, and number of rooms.
3.	Novelty / Uniqueness	The solution combines interactive visual analytics, dynamic filters, and feature-based comparisons to provide clear and user-friendly insights into housing market behavior.
4.	Social Impact / Customer Satisfaction	Helps home buyers, sellers, investors, and analysts make informed decisions, reducing uncertainty and improving transparency in the real estate market.
5.	Business Model (Revenue Model)	Revenue can be generated through premium analytics subscriptions, customized market reports, consultancy services, and dashboard licensing for real estate organizations.
6.	Scalability of the Solution	The solution can be extended to larger datasets, different regions, real-time housing data integration, and advanced predictive analytics in the future.
